

What is a Healing Circle?

A healing circle consists of three people encircling the table and client. As the client lies on the table and becomes comfortable: One person is positioned at the head and the other at the feet. Here they use their hands in cupped formation, placed on either side of head and feet. The facilitator then balances and grounds them to the client and Earth. This process is necessary to maintain the client's balance and allow for the healing session to proceed without interruption.

Anyone can participate in this circle as we all have universal energy abound.

There is demonstration and instruction on energy and its use, on the night of your event.

What happens inside the Healing Circle?

Here is the place that creates wellness, balance, vibrational match, assists in change and delivers healing energy.

It starts at the soul level, radiates into all cells, brings light into areas off balance and restores well being, shifts frequencies, while meeting with Earth's vibration.

Your angels, guides, masters and loved ones welcome this time as they are able to connect with you.

You are open and inviting and this is a place that is safe and reassuring.

Healing takes place on many levels, all with your permission.

***YOU WILL BE
TRANSFORMED
I GUARANTEE IT
There is no need for fear...
just Pur Enlightenment***

Reduce your interaction with electronics as you move into vibrational balance. Your devices may react as you shift your frequency. We are all just energy

What to expect from this session

There have been many different outcomes to the sessions, all very positive

Some have had feelings open up, others have had intuition crystallize, some have seen color, felt body temperatures alter, some have sensed others, felt others and heard altered sounds.

This all depends on you and your acceptance to the process, your willingness to being open and receptive to incoming data.

***WE ALL HAVE THE
ABILITY OF INTUITION***

What happens in the days that follow the healing session?

The facilitator always calls the next day to talk about what is going on at that point.

This is a time of process. (Approximately 3 days)

Your body and all its properties are being reconfigured, cleansed and rejuvenated.

This time must be spent taking care of you!

Go about your day as normal taking care to rest, eat and drink plenty of water. Water is as important as oil is to an engine. Water clears out toxins, liver and kidney functions are

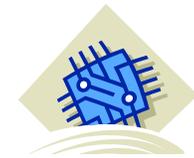

cleansed and brain and lymphatic system are cleared, cells on every level are vibrating and accelerating their functions, to bring you into balance and well being.

Where do I go from here?

The world is your playground and you have the ability to bring anything and everything into your life. This is just the beginning.

Healing Circles continue every Tuesday in Orangeville, ON
Workshops on the last Tuesday of the month.

Life is grand...do ENJOY!
